PROFESSOR ALEX. C. BARRY'S

RICOPHEROUS,
or Medicated Compound,

FOR beautifying, improving, and preserving the Hair, curing cuts, bruises, burns, stings, rheumatism and all irritations of the skin. A preparation, the sale of which amounts to one million of bottles annually, would seem to need no advertisement; but as the thousands who purchase, use, and approve of it, have probably no idea of the enormous extent of the business done by Professor Barry, begins herewith a plain statement of facts derived from his books, and with them tenders his earnest and hearty thanks to his innumerable patrons.

Professor Barry's accounts of sales for the year 1852, show that during that year about 310,000 bottles of his Ricopherous were dispensed of, and that the cash product of this immense sale was nearly $100,000.

This plain, unvarnished tale, is a better commentary on the value of the article than any thing its inventor could say. If it were not peerless in its effect upon the hair—if it were not invaluable as a household remedy for cuts, bruises, burns, skin diseases, &c.—it would not, of course, be so universally in demand. The wealthy portion of the public would pay it at any price, but Professor Barry has reduced it to a figure so low that the poorest can avail themselves of its benefits.

Sold in large bottles (price 25 cents) at wholesale and retail, at the manufactory, and depot 127 Broadway, New York and by the principal merchants and druggists throughout the United States and Canada, Mexico, West Indies, Great Britain, France, &c.

For sale in Bangor by G. F. SARGENT.

John Bunyan's Immortal Allegory

PROBABLY no book, save the Bible, has been so extensively read as Bunyan's inimitable allegory.

The Pilgrim's Progress.

It has been translated into nearly all the different languages of Christendom, and been perused with delight and holy fervor by all nations. Art has lent her attractions in no wily all the forms of illustration, from the rough *Wood Cut* to the exquisite *Steel Engraving*. But to the middle of the nineteenth century, and to an American clergyman, are we indebted for the *only pictorial conception* of this immortal work.

The novel and sublime idea of embodying the *entire story*, and transferring the same to a *single picture*, showing the wanderings of Christian from the "City of Destruction" to the Celestial City, presenting at one view to the eye the varied scenes through which he passed, originated with Rev. DANIEL WIGHT, of Massachusetts. His truly original and beautiful conception was reduced to a most elegant design by BLASHAT BILLINGS, and from this design JOSIAH ANDREWS, the distinguished historical engraver, has produced, after *four years of labor*, a picture which will take rank among the most superb and elaborate productions of human genius, taste and skill.

The picture is now ready and will be offered at the Bookstore of the Publishers, and by Agents duly appointed by the Publishers.

AN ORDINANCE
For the Care and Regulation of Burying-grounds

BE IT ORDAINED by the Mayor, Aldermen, and Common Council of the City of Bangor, in City Council assembled—

Sec 1—There shall be a Board consisting of three citizens of Bangor, annually chosen, the mode and time in which subsequently officers for the City of Bangor are, or may be chosen, which Board shall have the superintendence and control of the City Burying Grounds, under and in conformity with such regulations as the City Council may from time to time establish, and shall be entitled the Cemetery Board:

Sec 2—Be it further ordained—That said Cemetery Board shall be authorized to expend, in preserving and ornamenting each City Burying Ground such sum as the City Council shall from time to time appropriate for each, to be paid from the City Treasury on the order of the Mayor, when the bills for such expenditures shall have been approved by a majority of said Board:

Sec 3—Be it further ordained—That said Board shall report a full statement of their expenditures and doings respecting each Burying Ground to the City Council at the close of their official year, and at such other times as the Council may direct.

Sec 4—Be it further ordained—That the land purchased of John Hellier on the Carmel Road shall hereafter be known and designated by the name of PINE GROVE CEMETERY.

Sec. 5—Be it further ordained—That the front portion of said Pine Grove Cemetery be appropriated to ornamental purposes, roads, and at the disposition of the City Government—That another portion adjoining said front portion, and now divided into five hundred and ninety lots, upon the plan made by Nathaniel Collamore, dated Nov 1, 1853, of said Cemetery, be appropriated for private lots for burial purposes as hereinafter provided, and that the remaining portion of said land be hereafter used by the public for burial purposes, under such rules and regulations as may from time to time be established by the City Government, provided, however, that no burials shall be made therein till said last portion shall have been surveyed into lots corresponding to the plan before mentioned, and the lots assigned as hereinafter provided.

Sec 6—Be it further ordained—that any resident of Bangor may purchase any one or two of the lots appropriated for private lots, and described on the plan before mentioned, not previously disposed of, subject to the limitations and conditions and with the privileges following, to wit:

First—That the proprietor of said lot shall have the right to enclose the same with a suitable wall or fence.

Second—That the said lot of land shall not be used for any other purpose than as a place of burial for the dead; and no trees within the lot or border shall be cut down or destroyed without the consent of the Cemetery Board of the City of Bangor;

Third—That the proprietor of said lots shall have the right to erect stones, monuments or sepulchral structures, and to cultivate trees, shrubs, and plants in the same;

Fourth—That the proprietor of the said lot of land shall keep in repair, at his or her own expense, the land marks of the same which are now erected by the City of Bangor or their said Cemetery Board, or which may be hereafter erected.

Fifth—That if the land marks and boundaries of said lot shall be effaced, so that the said lot cannot, with reasonable diligence, be found and identified, the said Cemetery Board for the time being, shall set off to the said grantee, or his heirs or assigns, a lot in lieu thereof, in such part of the Cemetery as they see fit, and the lot granted before shall in such case, revert to the City of Bangor;

Sixth—That if any trees or shrubs situated in said lot of land, shall, by means of their roots, branches, or otherwise, become detrimental to the adjacent lots or avenues, or dangerous or inconvenient to passengers, the said Board, for the time being, shall have the right to enter into the said lot and remove the said trees and shrubs, or such parts thereof as are thus detrimental, dangerous or inconvenient:

Seventh—The City Government reserve the right to plant trees on the borders of the principal roads within four feet of the end of each, adjoining such road; said trees to be planted (under the direction and at the discretion of the officer having charge of said Cemetery) for the time being.

Sec. 7—Be it further ordained—That the price of each private lot shall, until otherwise ordered by the City Council, be ten dollars.

Sec 8—Be it further ordained, That the City Treasurer, for the time being, be authorized to receive such price for lots as may from time to time be fixed by the City Council, and thereupon convey, in the name of the City of Bangor, by deed, with the conditions and restrictions as provided in the sixth section of this ordinance, to any resident of said city, any one or more, not exceeding two of said lots. The purchaser also paying fifty cents to the Treasurer for each deed by him received, in addition to the price of the lots. And it shall be the duty of said Treasurer to mark on the plan before mentioned, all lots so conveyed, and keep a record of all lots sold, with the number of the same, purchaser, date and price, and also in the same book and record, all assignments of lots in the public grounds as hereafter mentioned.

Sec. 9—Be it further ordained, That any purchaser of two adjoining lots, between which there is no alley or walk of one hour feet in width, may include the same and said walk or alley within one enclosure.

Sec. 10—Be it further ordained, That the proceeds of all sales of private lots in the Pine Grove Cemetery, shall be kept by the Treasurer above said in a separate fund, to be designated, Pine Grove Cemetery Fund, and all expenditures of money, including all made since Aug 1, 1853, shall be charged to said fund by said Treasurer.

Sec. 11—Be it further ordained, That all applications for assignments of lots in the public grounds in any Cemetery in the City of Bangor, shall be made to the City Treasurer for the time being, and said Treasurer shall have authority to assign to any head of a family in said city, any lot in said public Grounds, previously surveyed and lotted by the City Authorities, or the Cemetery Board, and not previously assigned, and the applicant for said assignment shall first pay to said Treasurer, twenty-five cents for said assignment, and recording, as before mentioned.

Sec. 12—Be it further ordained—That no burial shall be permitted in any assigned lot without the consent of the head of the family, if living, to whom the lot was assigned, except that in cases where there are no known relatives within the degree of second cousin living within the City of Bangor, and in cases where there may be a disagreement among said relatives respecting any burial, the decision of the Cemetery Board shall be final, and shall be final in the premises.

Sec 13—Be it further ordained—That it shall be the duty of the Cemetery Board to cause plans to be made of all surveys of Cemeteries and Burying Grounds ordered by them, and to cause the same and all other plans of Burying Grounds which shall come to their knowledge, to be recorded in the Plan Book of the City.

Three Weekly Journal
FOR 1854.

DURING the approaching session of the Legislature, the undersigned will continue the publication of the Thrice-Weekly Journal, being Volume X of the same.

While the paper will be principally devoted to furnishing a correct Report of Debates and legislative business generally, a war share of attention will be given to Miscellaneous and News matter.

The peculiar elements constituting the Legislature, upon which devolves the organization of the State government, and the election of an U S Senator, besides action upon many other matters of importance, all go to render the session one of unusual interest.

The Thrice-Weekly Journal will be published on MONDAY, WEDNESDAY and FRIDAY mornings; alternating with the Thrice-Weekly Age, and thus furnishing a daily Legislative paper. The price will be ONE DOLLAR FOR THE SESSION, as usual—payable in advance.

☞ It is desirable that the names of subscribers, accompanied with the money, should be sent in a week, at least, before the session commences.

Song—"The Law of Maine."

Awake! ye friends of temperance, wake!
And guard the law of Maine,
For justice sake for mercy's sake
Uphold its glorious reign.

Let not its enemies prevail
In their dire mischief aim,
And by its downfall spread the tale
Of sorrow and of shame.

Its success has sustained your cause,
And still its aid would lend—
Its the noblest of our laws,
And will commend success.

The richest joys of earth depend
Upon its onward course
And never may the blessings end,
That spring from this pure source.

Let not the words of vengeful men,
Or falter in their fears;
The ink, that flows from their pen
Would cause the saddest tears.

Arise! and put your armor on,
Nor leave the body fight,
Until beyond defeat is won
The victory of right.

Until the law, like that of Maine
Shall rule in every State
The men and traffic to restrain,
That life's worst ills create.

Behold! its banner is unfurled,
Come! rally round the sheet,
Its conquests will redeem the *World*,
And make the freedom sweet.

Father Gavazzi on American Schools.

In a lecture delivered in Boston last week against the Roman Catholic system, Father Gavazzi spoke on the school question, as follows:—

But the second point of attack is against your schools. And why? This is the reason: To corrupt the present generation in America is a difficult thing. A writer has said with force and truth, of German and French and other Catholics who have not the blindness of the Irish, that the first mass they hear after arrival here, is their last, because they soon awaken the mummeries of the Roman Catholics, pass by the errors of infidelity and become Protestants. Therefore the church tries to corrupt the youth in the schools in order to have them afterwards subservient to the Bishops. I find this attack against your schools increasing every month. I have nothing to say against Roman Catholic people. They are but the puppets in the hands of the Priests or Bishops, who stay at home and pull the wires—sending the people forth to cry out against the schools.

The Baltimore Council said that your State schools are infidel and immoral, and no Roman Catholic boy should be sent to them. I reply that they cannot be infidel while the Bible is read in them, for the Bible is the foundation of true faith in Jesus Christ. The Roman Catholic schools have not the Bible, and therefore are infidel schools. Again, they are not immoral, and cannot be immoral, because the teachers are married—are fathers and mothers—and fathers and mothers cannot corrupt the children of other fathers and mothers—and so they are not immoral. Those schools are immoral where the teachers are priests and monks, and nuns doomed to celibacy—immoral teachers, and they are making immoral schools. Therefore your schools are not immoral or infidel. Therefore prestoy your schools as they are!

But these are mere sham objections. There are two real ones—they are the Bible

progress has been made in four years If they should succeed so for ten years, they would be masters Therefore resist it now See the activity which prevades their ranks, see their audacity in attempting thus to rob the school rent. Resist it now! and, with no money, in a few years there will be no Roman Catholic schools.

The greatest enemy to your land is not from abroad—not from foreign invasion! Your Greatest enemy is the ignorance of your people. There are 28,000 people in Massachusetts who cannot read, of whom 1800 are natives and the rest foreigners.

You are therefore menaced with ignorance, not of your own people but of foreigners, therefore keep your State schools as a preventive against imperial aggression and against civil discord!

SATURDAY, DEC. 10, 1853.

☞ The People's Press published at Showhegan is in a sad and nervous state of perturbation, on account of a very dark plot having its origin and field of operation in this city by which the Whig party in Maine is to be slain and all its cherished men to be immolated.—We are seriously asked if we, being upon the spot here know anything of all this, and we quickly and hurriedly answer in the very word selected for us, and put in our mouth for us to utter or swallow,—no!

We trust that the writer of the Press will breathe freer now that he has a negative in just the form he desired. We said *no!* We mean *no*

The subject is so treated in the Press and there is about it so much froth and affectation that we are quite incredulous as to the fact and before commenting upon the matter we wish first to be sure there is something in it—As at present advised, and according to our present knowledge we are disposed to deny the truth of the declaration of the Press, and we do so the more readily in order to force it to an early exhibition of its proofs. There has been enough of the Lo here! lo there! Now we desire something tangible, some proof, some show firmer than humbug and gammon, for the purpose of making a flash and a smoke Will the Press meet the issue, or will it vapor and dodge, and try to kick up a cloud of dust in which to cover itself from observation? We shall see

☞ The Governor General of Cuba has issued a circular to the several sections of the government indicating great fear of an invasion from the United States The circular affirms that the superior authority has been surely informed that the traitors, enemies of her Majesty, favored by the magnanimous indulgence with which they have hitherto been treated by the Queen, and hypocritically protected by the new administration of the United States, are projecting a fresh invasion of the island, with considerable force, and as it is deemed necessary to repress the revolutionary tendencies of the native inhabitants of the country with a strong hand, it is therefore ordered, that the said captains be invested with authority to compel all persons suspected of partiality to the Americans and to freedom, to offer their persons and property for the Spanish service In case of the landing of the invaders, every native is to be called out who is capable of bearing arms, and where money is no forthcoming peaceably, it is to be taken forcibly, with whatever property can be found All shores at the law are to be shot. A forced loan of two million dollars is spoken of.

The whole of this matter probably arises in a determination of the new Captain General to exercise great power in the administration on which he is entering

☞ Rev T D Huntington in a speech on a recent occasion, contended that there is something mentally ennobling connected with equestrian exercise "I am," says he, "inclined to think riding as sovereign a cure for meanness as for dyspepsia. And I think," he continues, "that it would be of great service to our young men and young women if they indulged more generally in this exercise, obtaining more muscle and less arithmetic" He says he holds it to be true that no young man or young woman is properly educated until he or she knows how to sit firmly in the saddle

A Railroad War.

At Erie, New York, there is great excitement and a great mob engaged in tearing down a bridge on account of the operations of the railroad company in widening the gauge of their track Seven hundred rowdies were at the depot engaged in tearing up the rails and demolishing the bridge on Wednesday last The train could not pass and the passengers were taken around the city to connect with the line on the other side.

☞ The Machias Union states that a few days since there was a great land slide on the river between Addison and Columbia The first intimation had of it the Columbians found the tide did not ebb at the appointed time, and upon seeking for the cause they discovered the river completely dammed up by an avalanche of some acre and a half of earth.

☞ The Belfast Signal states that a few days since, as M. B. Sylvester of Lincolnville, was going to market with a load of beef, he fell in with a large eagle, measuring 7 feet 3 inches across the wings. Mr eagle seemed disposed to stand his ground and show fight whereupon Mr. Sylvester with his gourd stick succeeded in capturing him and taking him along to market.

☞ Navigation has been stopped in our river by the making of the ice on Thursday night.

During the few days past a large amount of goods have been landed here which it was thought would require to be hauled by land from Frankfort.

☞ Will the officers of the Penobscot Agricultural Society see to it immediately that the publication committee of the Board of Agriculture is furnished with reports, &c, required for publication? The members of the Board from this county should move in this matter.—The required documents may be sent to Dr. B. Holmes at Winthrop.

THE FRONTIER MISSIONARY. A Memoir of the Life of the Rev Jacob Bailey, A. M., Missionary at Pownalborough, Maine; Cornwallis and Annapolis, N S; with Illustrations, Notes and an Appendix. By Wm S Bartlett, A M, Rector of St. Luke's Church, Chelsea, Mass, and a corresponding member of The Maine Historical Society With a Preface by the Right Rev George Burgess, D D, Bishop of the Protestant Episcopal Church in the Diocese of Maine Boston Ide & Dutton. 1853.

This is the title of a large, handsome and substantial volume of three hundred and sixty five pages It is one of the most interesting and valuable contributions to the historical literature of the age that has been for some time issued, bringing freshly before the mind in an attractive form incidents and characteristics of national as well as ecclesiastical value.

The view of one of the illustrations, the Whitefield Church in Newburyport, or Dr Dana's Meeting house in Federal street, as those of a later generation were accustomed to call it, led us to a pretty close examination of the volume, and we find it a pleasant book to read, aside from its sterling historical character

The author has succeeded in throwing the charm of a graceful style and weaving in the gems scattered thickly in the life and time of his subject, which enlist the feelings and bear one onward with delight through his pages

We could linger a long while in giving expression to the interest which this work has awakened in us, partly from its localities partly in its history of the church in which we were educated, partly in the author, whose face in boyhood was familiar to us, but mainly in the admirable manner in which the labor has been performed But we will not venture to trust ourselves upon this sea, especially as we find the following article in reference to the book ready prepared to our hand by a correspondent of the Boston Journal, and which will fully compensate for the reading, in its descriptive and historical incidents He says

For sale in Bangor by George E Smith

Rev Jacob Bailey, the subject of this memoir, belongs to a past generation, and his life is identified with manners and customs long since vanished, but which are curious and interesting to every reader in this age of progress Mr. Bailey was born at Rowley, in this State, in 1731 His parents, poor and honest, depended for their support on the fruitfulness of a small farm Schools and facilities of education at that time were scarce, but a special Providence seems to have smiled on this young sparrow. Instead of wasting his time in boyish sports, Jacob at a very early age became a great reader in a village where ignorance and narrow views were too prevalent He was fond of writing down his thoughts, and one of his juvenile essays accidentally reached the eye of the Rev Jed Jewett, pastor of the parish where his parents worshipped, who was so much struck with the marks of genius and talent, that he invited the lad to his house, taught him some of the higher branches of learning, and afterwards prepared him for Harvard University, which at twenty years of age he entered, and left with the academic honors and the reputation of a sound scholar. He was a classmate of John Adams.

He chose the Episcopal Church for a profession, and after his studies were completed went to England, was duly ordained by the Bishop of Peterborough a London, in June 1760 returned home to begin the work of the ministry

In the same year he was sent as a missionary to Pownalboro, now Dresden, a rural town on the beautiful banks of the Kennebec It was then called Frankfort, from the German emigration which had settled there. The next year Mr Bailey married. His trials sufferings, and deprivations in this small settlement were great Pownalboro which then included Dresden, Alna, and Wiscasset, was the shire town of Lincoln which was incorporated as a county the first after York, which then included all Maine in its territory Public buildings were erected at Dresden by the Plymouth Company, and the old Court House, a three story building, now a private mansion, still looms up among the trees on the bank of the Kennebec—a memorial of those days when John Adams, afterwards President of the United States, was the chosen with his green bag, engaged in some great trial, as an advocate.

At that time there were three block houses or forts erected on the Kennebec in this vicinity Fort Frankfort, near the site of the Court House, sometimes called Fort Shirley, another two miles eastward where the principal village of Dresden has grown up—on an intervale nearly opposite the late Sheriff Bridge's mansion, and Fort Richmond, at the front in Richmond, on the western side of the river The forts with the Indians, have all vanished, not without the sigh of the historian, for these block-houses were memorials of courage and fortitude which should never be forgotten Fort Western in Augusta, fifteen miles up the river, however still exists, an object of curiosity to the stranger

Mr Bailey at first occupied Fort Richmond with his family, and used the little chapel, which belonged to it, for a place of worship. In 1770, by the instrumentability of the late Dr Sylvester Gardiner and other liberal friends, a church was erected in Dresden, 60 feet by 32 to which was added a parsonage house with a garden of three acres—They stood on height of land between the junction of the Eastern and Kennebec rivers, where the two streams flowed in sight, and the distant White Hills were on the horizon of the wide landscape Any person who has visited the spot will be convinced that the pastor of this little church was not extravagant in his admiration of the romantic scenery

Here for several years Mr Bailey struggled with poverty, opposition and frequent discouragement in his missionary labors Often called to journey through a wilderness to Harpswell, or guide his canoe some miles below to Georgetown to preach to the few assembled in those places, he experienced hardships unknown to clergyman in this part of the country, where railroads and cars have made such labor only a recreation—The memoir is richly filled with copious extract from the diary of his life, where he describes with a graphic pen, his feelings and his sufferings

The Revolution broke out in the midst of his labors He was a loyalist, and was obliged to flee from sweet home and growing society, and quit the country He hoped the altar would have protected him and his young family from danger, but he found it otherwise. He was surrounded by enemies for we know that in war times there will be war feelings, when temple of God will not always protect, its sacerdotal guardians. It has ever been so:

"Fecce trahebatur passis P amora virga
Crinibus a templo, Cassandra, adytisque Minerve,
Ad coelum tendens ardentia lumina frustra,"

Mr. Bailey was exposed to insults, suspicion and want. He was in jeopardy every hour At times his wife and poor children were almost reduced to starvation. It was dangerous for friends even to supply them with bread The gloomy description of his sufferings at that period is a sad comment on the turbulence of the times. Feeling his life insecure, he secretly departed after a mournful farewell to the place now endeared to him, and to the few weeping parishioners who lamented his fate He embarked with his suffering family on board of a small schooner at Georgetown, bound for Halifax The captain took the route through Hellgate, from Bath to the Sheepscot; and being detained by contrary winds, Mr Bailey received friendly supplies from gentlemen in Woolwich and Wiscasset—some of whom were the progenitors of families who have since risen to opulence, and were noted as magnates in after days, where they dwelt

The diary of his sea voyages is full of interest to those who know the localities They coasted along the shore, passed Cape Newagen, Penaquid, the Isle of Monhegan, which rose "like a mountain out of the ocean," the green islands in Penobscot Bay, Owl's head Harbor, Mount Desert from whose summit is one of the grandest views in the world, and crossing the bay of Fundy, arrived safe at Halifax, where they found a cordial welcome The help which Mr Bailey's family received, however, was very limited, the refugees there were numerous, and calls on charity were urgent and many! But finally he was settled as a pastor over the church at Annapolis, where he remained for twenty-five years, and died, aged 79, in 1808.

The Rev Jacob Bailey was not a great, but from one view, no a good man He had a picturesque imagination, and his descriptions are always interesting. He was a faithful preacher and cheerful companion, warmly devoted to the cause of Christ, in which he was enlisted He was indeed a "Frontier Missionary in those days when Maine was sparsely settled, and the Episcopal Church was viewed with suspicion and prejudice by other denominations Such days have long since gone. Men become more tolerant and charitable as they become more enlightened

Mr. Bartlett has presented to the public a very interesting piece of biography, and has admirably succeeded in a department where many have failed and fallen into a dry and monotonous detail of private life When I first took it up to read, I expected a solemn, sermonizing narrative of the life and closet exercise of a pious clergyman, but from page to page the interest has increased, and he work gives us such a faithful picture of he times more than a hundred years ago, the perusal is well calculated to make us realize the boundless blessings we now enjoy, when a most every village in the land has its church and its bell, and every valley and mountain are echoing with the whistle of the locomotive, which agriculture, commerce and manufactures have set in motion

☞ There has been picked and carried from Russell Mountain, in the town of Birchard, three thousand two hundred bushels of blueberries the past season. Some families, living in the immediate vicinity of the mountain, realize from fifty to one hundred dollars a year, from this source alone.

☞ Madame Johnson, Mesmeric and Botanic Physician, from St Louis, now stopping at the Franklin House on her first visit to this city, has been practising for the last ten years at the South and West See advertisement in another column.

☞ By the arrival of the Pampero at New Orleans, from San Juan, it appears the with what she brings there is now on the way from California the amount of about three millions of dollars in gold

The Bath Tribune pokes fun, rather severely at Timothy Bidgelow, Esq, one of the public lecturers of the season.

☞ There are now more than eighteen hundred sons and daughters of Maine in Lowell

Health and Disease!

To the Editor of the Whig and Courier

"Our life contains a thou and springs
And dies if one goes wrong,
Strange that a harp of thousand strings
Should keep in tune so long"

We come now to speak of some of the real causes of disease.

Though it is but a single point, as it were, that we wish to approach, we are almost at a loss where to make the attack It has been we believe, clearly demonstrated that the stars were innocent—that the infuriated demon was but an imaginary being—that the air we breathe and the water we drink (if remote from the pollutions of man and his strange inventions) are free from the charge The causes of physical suffering are not to be found here All nature protests her innocence

The breeze that fans the burning cheek of the laborer, that dances with the ringlets of the playing child, that kisses the bosom of the sleeping lake, ruffling its fair face with a smile of gladdened animation—the babbling Brook, creeping from its parent spring, dancing over its pebbly bed or leaping with a gush of hilarity and joy from the precipice—the constant stars watching the earth with tender seeming eyes, while day is king has gone to rest—all, all declare in tones at once decided and pessuasive, "Frail man, we are not guilty" The maddened hurricane, as it rushes over the earth, bearing swift destruction on its wings—old ocean's angry waves, as they climt the shore with their deafening surges—the rolling thunder, that speaks of power—the gleaming lightings, wild as the Nubian lion—all, all with fearful indignity, give back to us the lie, and proclaim, "Yo alone are guilty"!

Man has departed from nature, he has refused to be taught by her, he has sacrificed the richest blessing heaven has vouchsafed to give him to pander to his depraved appetites and passions He is guilty of living too fast, of seeking after, and partaking of such food and drink as his system is in no way adapted to—The system of his diet is at war with the physiological laws which govern him, while he, in his blindness, attributes to her the fault, and utters, in bitterness, bitter curses and fearful imprecations against his faithful teacher

Nature, at first, admonishes him and he heeds it not she punishes She has been slow to anger Man has long and wickedly violated her kindly law She has remonstrated has punished, and has ever made provisions to save him in his error She has not utterly destroyed, but given him opportunity to reform

In our next, we shall speak of particular causes, as they exist in the habits of man

SCHWREOK AND SCHWREOK AT SEA. The London Shipping Gazette of Nov 18th, contains the particulars of the loss of the California Packet, bound from Sligo for New York, with emigrant passengers She left Broadhaven Nov 3d, and at twelve that night sprung aleak, when about one hundred miles off the coast Every exertion was made to keep the ship afloat, by throwing over the cargo, and even the females plied the pumps, but she final ly settled down, and those on board took to the boats In the long boat were thirty-seven persons, only six of whom were men, without a compass or sail, one blanket and two oars; the life boat had twenty-two souls, and the gig the captain, the owner, and a part of the crew. The latter boat was picked up by a vessel. The others were four days and nights on the ocean during which time fourteen of them died, principally children, for want of water, there not being a drop on board After they reached the land, three others died from the privations which they had endured.

The following is from the principal accountant of the wealthy and highly respectable house of Messrs. Voss & Bro, of this city and presents one of the MOST WONDERFUL CURES in the annals of medical history

Mr B G Farrell—Dear Sir Actuated by a sense of gratefulness I submit the following as an instance of the utility of your great medicine My child three years old, was suddenly attacked with a terrible disease which in less than six hours prostrated it to total helplessness. The limbs became so rigid that not a joint could be bent, the flesh turned black and cold and entirely deprived of feeling the eyes fixed partially closed and altogether blind, following this was declared to all sounds the spine became contracted, and so curved that when laying on its back the head and heels only touched Indeed the child presented every appearance of being dead Immediately on the attack the family physician was called in and for three weeks he labored to restore it to feeling, but all in vain, although it was subjected to dozen times and various scientific liniments applied. A consultation of physicians was then held but to no purpose the case was then brought before the Medical Society, but nothing could be suggested which had not already been done and the doctor then told me he could do nothing more We then commenced applying your Liniment freely over the entire length of the spine and you may imagine a parent's joy, when after a few applications, returning animation was apparent and it finally recovered with the exception of the sight which did not seem perfect for near a month The child now healthy and robust as can be Five other cases of the same kind occurred previously in my neighborhood of which died, which them in no doubt if your Liniment been used they would have recovered.

McFarland's BURGLAR and FIRE PROOF SAFES.

THE undersigned would respectfully call the attention of the public to the above unequalled safeguard of property—proof against the devouring element of fire, as well as the most skilful burglar To MERCHANTS, JEWELLERS, and BANK DIRECTORS we would only say, examine them and the proofs and you will be convinced of their superiority over all other manufacture

Our business is done in a plain, straightforward way, without resorting to humbug or large talk

Below is one of the many testimonials we are daily receiving from all parts of the country and which speaks for itself Messrs Pond & Hitchcock's Oil Store was situated directly under the Pearl-st House and was totally consumed in that great fire of August 23d

NEW YORK, Aug 23 1853

Messrs Wm McFarland & Co

Gents—It affords us pleasure to inform you that the Fire and Burglar Proof Safe we purchased of you, preserved our books and papers at the disastrous fire of the Pearl st House, last evening, in the most perfect manner Although it was covered throughout the fire with burning Rosin, and other Oils and directly under a broken gas pipe, in the most intense heat it remained true to its name and its contents when taken out were not even scorched and hardly bore the smell of fire To any one who is in want of a superior Safe a perfect safeguard against fire we cheerfully recommend your manufacture, having had a personal experience of their excellence Yours truly,

SEYMOUR'S GALVANIC

ABDOMINAL SUPPORTER.

THIS apparatus possesses all the mechanical advantages of the Abdominal Supporters now in use, and also some valuable improvements beside the galvanic attachment. It has been tested approved of, and universally adopted wherever the practice of all the leading Physicians in New York, Boston, and all other places where introduced in the treatment of all Nervous diseases which exhibit themselves under so many different heads, and particularly in the cure of Uterine difficulties The beneficial results which have uniformly attended the use of this instrument are a sufficient guaranty of its utility and general application The advantages of this over other Supporters are, it cures by its Galvanic action, presents a smooth surface that does not retain heat or impurities which pass from the system, and can be kept pure and healthy

The attention of the medical profession is respectfully solicited to an examination and test of the instrument The above Supporters are for sale by GEO W EMERSON, Druggist No 4 Smith's Block sole agent for Bangor and vicinity

Real Estate

For Sale or Exchange for City Property

I have for sale or exchange for city property, a most desirable country seat, just outside the city, commanding a fine view of the city and the surrounding country. It is a two storied House, with ell attached, with six acres of most fertile land in high cultivation. It has a fine orchard of grafted fruit Trees and Shrubbery The buildings are all of the best quality, well painted, and in good order. There is also a large cistern with soft water within the house, and an excellent well of good water within the kitchen The establishment is in all respects desirable, and was built by a wealthy gentleman for a private residence. This is one of the most desirable locations for any gentleman who wishes to make a country residence, and which can be found in the State.

Any one wishing for such a place will do well to call on me *immediately* at the Real Estate Office, No 12 Exchange Street

BROKEN China Glass, Earthen Ware and Fancy Articles of every description repaired and mended making it as strong as before by using without injuring its appearance

This Cement which has been proved to be of great strength will be found particularly useful in every family, the simple manner of its application is some a recommendation The adhesive property which it contains is so wonderful that many things will rather break in a fresh place than where they have been mended with it The variety of purposes for which it may be used are so numerous that it would be difficult to recite them its success in mending Glass China &c is not ordinary no ordinary degree of heat affects it, and as the joints are scarcely perceptible articles of this kind may be made useful for years, which otherwise would have been cast away

TESTIMONIALS

The following certificate from Dr John C Warren, of Boston, was given 17 years since but will last forever

Boston, Jan 5, 1836

Having had occasion to observe that some persons afflicted with Hernia have suffered much from the want of a skillful workman in accommodation Trusses to the special wants of their cases, I have taken pains to inform myself of the competency of Mr J F Foster to supply the deficiency occasioned by the death of Mr Heath—After some months of observation of his work, I am well satisfied that Mr Foster is well acquainted with the manufacture of these instruments, and ingenious in accommodating to the variety of cases which ever I feel called upon to recommend him to my professional brethren, and to the public as a person well fitted to supply their wants in regard to these important articles

JOHN C WARREN, M D

The undersigned take great pleasure in recommending to the favorable consideration of those who are multiply afflicted with Hernia, Mr James Frederick Foster, as a skillful and competent person in the manufacture and fitting of Trusses We have employed him (some of us ever twenty years) and therefore speak from personal knowledge of his abilities His early advantages his long experience in the business and the large number of individuals whom he has relieved in a variety of cases, render him, in our opinion equal, if not superior, to any manufacturer of the article His father Rev Gideon Foster, of Charlestown, was master of the Public school in that town for upwards of twenty four years, during which period Mr Foster availed himself of the opportunity, and made application of Trusses to a great variety of cases, with great success some of which were of a very complicated and distressing character

It is well known to all who have occasion to wear a Truss, that its great excellence consists in the adaptation to the body at the same time relieving the pain Any ordinary mechanic may make a Truss but none but a skillful practitioner can apply it in such a manner as effectually, and oftentimes radically cure the complaint

Our experience has convinced us that Mr Foster has thoroughly attained this knowledge The certificates of Dr J C Warren, and other eminent surgeons, which he has shown to us, fully sustain the opinion we here express

DR. MORSE'S Invigorating Cordial,

A

Phenomenon in Medicine.

Health Restored & Life Lightened by Dr. Morse's Invigorating Elixer, or Cordial.

For centuries Mankind search has been made among the vegetable and mineral kingdoms in search of something that should restore the fire of energy in the nervous and muscular systems, restore to the drooping cheek of enfeebled prostration which disease of late, disease and anxiety had therefore entailed—that something has been found. It is a vegetable production brought from the sunny deserts of Africa by the celebrated Professor M Morse, well known as a distinguished member of the leading scientific societies of the Old world and equally distinguished as a physician, a chemist and a traveller The juices of this herb, concentrated and combined with other vegetable medicinal extracts, are now producing results hitherto unheard of, in this or any other country At first the properties attributed to Dr MORSE'S INVIGORATING ELIXER OR CORDIAL were deemed fabulous The public could not believe the simple and sublime truths announced by the discoverer But facts, undeniable facts are telling wonders of the highest class and character, in many instances overcoming doubt, by unique testimony which is perfectly irresistible

The ELIXER remedies, in all cases the 1st prime evils arising from a misuse or abuse of the animal organs which make up the wonderful machinery of man It restores to full vigor every delicate function connected with that mysterious compound agency of matter and mind, necessary to the *reproduction of human life* In persons of feeble muscular frame or debilitated mental power it is recommended as the only means of accumulating that energy which is necessary to the proper enjoyment of all the natural appetites as well as the high enjoyment attributed to the beneficent office is not not confined to males or to any age The female and the young wife, the listless, enervated youth, the man worn down by sickness, the victim of nervous depression, the individual suffering from general debility or from the weakness of stomach or bowels will find immediate and permanent relief, from the use of this unrivalled restorative To those who have a predisposition to paralysis it will prove a complete and unfailing safeguard against that terrible malady There are many ladies, who have so far trifled with their constitution that they think it is clean beyond the reach of medicine But not even the desperate The Elixer of Health acts as a tonic, without reference to causes, and will not only remove the disorder itself but

REBUILD THE BROKEN CONSTITUTION

The derangements of the system leading to nervous diseases and the forms of nervous disease that are numerous, that it would require a column to enumerate the ills for which this preparation is a specific A few, however, may be enumerated, viz nervous irritability headache, incipient paralysis, loss of memory of the heart, spinal affections, muscular debility, female flatulence a pricking sensation of the flesh, numbness, torpidity of the liver, mental depression weakness of the will, indisposition to mental exertion after exercise, broken sleep and terrifying dreams, unable to remain in one place or position weakness of the generative organs, spinal incompleteness, melancholy monomania fluor albus sinking at the stomach, female irregularities, chronic tendency to miscarriage nervous and all complaints growing out of a feeble digestion If the passions and all buoyancy of spirits are not proceed from organic causes beyond the reach of medicine

Whenever the organs to be acted upon are free from malformation or structural diseases it is almost that

MORSE'S INVIGORATING ELIXER Will restore weakness with strength, languidness with vigor, and only with uniform application of the remedy and then not only without hazard of reaction, but with a happy effect on the general organization Bear in mind that all maladies whatever they be, flush with the nervous system and that the parish of the nerves of motion and sensation is *physical death* Bear in mind also, that for every kind of nervous disease the Elixer Cordial is the only reliable preparation known

CURE OF NERVOUS DISEASES

Nothing can convey a adequate idea of the immediate and almost miraculous change which it operates in the diseased, debilitated and shattered nervous system whether broken down by excess, weakness of nature, or impaired by sickness the nerving and relaxed organization is at once braced revivified, and built up The mental and physical symptoms of nervous disease vanish together under its influence Nor is the effect temporary, on the contrary the relief is permanent, for the tonic properties of the medicine restore the constitution itself, and restore it to its normal condition

LOSS OF MEMORY.

Confusion giddiness rush of blood to the head melancholy mental debility hysteria wretchedness thoughts of self destruction fear of insanity hypochondriasis despair general prostration irritability nervousness inability to sleep diseases incident to females decay of the propagating functions hysteria monomania weak nerves, palpitation of the heart, impotency constipation, acute sight from which, or from arising it is, if there is any reliance to be placed on human testimony, also totally infallible

A GREAT MEDICINE FOR FEMALES.

The unparalleled effects of this great restorative in all complaints incident to females mark a new era in the annals of medicine Thousands of stimulants have been invented—thousands of invigorating remedies—all purporting to be specified in the various diseases and derangements to which the delicate frame of woman is liable These nostrums have indeed imparted a momentary vivacity to the nervous system, a transient and delusive vigor to the muscles, but this flush of relief has been succeeded by a depression and prostration greater than before, and the constitution has been totally paralyzed the recuperative powers of the nerves and the vital organization, and finally totally destroy the unhappy patient.

EVERY WOMAN OF SENSE,

who suffers from weakness, dreamness, nervousness, tumors pains in the back, or any other disorder, whether peculiar to her sex or common to both sexes—to give the Invigorating Cordial a trial

MARRIED PERSONS,

or others, will find this Cordial after they have used a bottle or two, a thorough regenerator of the system In all directions are to be found the happy parents of healthy offspring, who could not have been so, but for this extraordinary preparation And it is equally potent for the many diseases for which it is recommended Thousands of young men have been restored by using it, and not in a single instance has it failed to benefit them

PERSONS OF PALE COMPLEXION,

or consumptive habits are restored by the use of a bottle or two to bloom and vigor changing the skin from a pale, yellow, sickly color to a healthful florid complexion

TO THE MISGUIDED.

These are some of the sad and melancholy effects produced by early habits of youth viz weakness of the back and limbs, pains in the head dimness of sight, loss of muscular power palpitation of the heart, dyspepsia, nervous irritability derangement of the digestive functions, general debility, symptoms of consumption, &c.

Mentally, the fearful effects on the mind are much to be dreaded Loss of memory, confusion of ideas depression of spirits, evil forebodings aversion to society self distrust, love of solitude, timidity, &c, are some of the evils produced All this afflicted

BEFORE CONTEMPLATING MARRIAGE,

should reflect that a sound mind and body are the most necessary requisites to promote connubial happiness, indeed, without these, the journey through life becomes a weary pilgrimage, the prospect hourly darkens the view, the mind becomes shadowed with despair, and filled with this melancholy reflection that the happiness of another becomes blighted with your own.

PARENTS AND GUARDIANS

are often misled with respect to the causes and sources of diseases in their sons and wards How often do they ascribe to other causes of wasting of the frame, idiocy, madness, palpitation of the heart, indigestion, derangement of the nervous system, cough and symptoms indicating consumption, when the truth is that they have been indulging in a pernicious, thoughtless during practice, destructive both to mind and body.

CAUTION.

DR MORSE'S INVIGORATING CORDIAL has been counterfeited by some unprincipled persons

In future all the genuine Cordial will have the proprietor's fac simile pasted over the cork of each bottle, and the following words blown in the glass—

"Dr. Morse's Invigorating Cordial. C. H. RING, Proprietor, N. Y."

The Cordial is put up highly concentrated in pint bottles.

Price,—$3,00 per bottle; two for $5,00, six for 12,00.

AYER'S PILLS.

FOR ALL THE PURPOSES OF A

FAMILY PHYSIC.

THERE has long existed a public demand for an effective purgative pill which could be relied on as sure and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical *pill*, but not easy to make the best of all *pills*—one which should have none of the objections, but all the advantages, of every other. This has been attempted here, and with what success we would respectfully submit to the public decision It has been unfortunate for the patient hitherto that almost every purgative medicine is acrimonious and irritating to the bowels. This is not Many of them produce so much griping pain and revulsion in the system as to more than counterbalance the good to be derived from them These *pills* produce no irritation or pain, unless it arise from a previously existing obstruction or derangement in the bowels. Being purely vegetable, no harm can arise from their use in any quantity but it is better that any medicine should be taken judiciously Minute directions for their use in the several diseases to which they are applicable are given on the box. Among the complaints which have been speedily cured by them, we may mention Liver Complaint, in its various forms of Jaundice, Indigestion, Languor and Loss of Appetite, Listlessness, Irritability, Bilious Headache, Bilious Fever, Fever and Ague, Pain in the Side and Loins, for, in truth, all those are but the consequence of diseased action in the liver As an aperient, they afford prompt and sure relief in Costiveness, Piles, Colic, Dysentery, Humors, Scrofula and Scurvy, Colds with soreness of the body, Ulcers and impurity of the blood, in short, any and every case where a purgative is required.

They have also produced some singularly successful cures in Rheumatism, Gout, Dropsy, Gravel, Erysipelas, Palpitation of the Heart, Pains in the Back, Stomach, and Side They should be freely taken in the spring of the year, to purify the blood and prepare the system for the change of seasons. An occasional dose stimulates the stomach and bowels into healthy action, and restores the appetite and vigor They purify the blood, and, by their stimulant action on the circulatory system, renovate the strength of the body, and restore the wasted or diseased energies of the whole organism Hence an occasional dose is advantageous, even though no serious derangement exists, but unnecessary dosing should never be carried too far, as every purgative medicine reduces the strength, when taken to excess The thousand cases in which a physic is required cannot be enumerated here, but they suggest themselves to the reason of every body, and it is confidently believed this pill will answer a better purpose than any thing which has hitherto been available to mankind. When their virtues are once known, the public will no longer doubt what remedy to employ when in need of a cathartic medicine

DR. JOHNSON'S

AMERICAN ANODYNE LINIMENT.

For Internal and External Use.

THIS wonderful Medicine, notwithstanding it has never had the advantage of newspaper puffing, has yet accumulated a higher and more extended popularity than any other simple compound in the world It is purely of vegetable extract, and is safe to be administered even to the most perfect by and alike astonishing and satisfactory in its effects upon man or beast In those many instances where this invaluable medicine we say, is fairly tried, and we promise you a radical cure of Coughs Colds Asthma Bronchitis, Whooping Cough Influenza, Spitting of Blood, and all Lung Complaints, Chronic Diarrhea, and Dysentery in all of which cases it should be used internally The effects of its external application in cases of Rheumatism, Spinal Diseases Sprains, Chapped Hands, Bruises, Burns, and all descriptions of wounds, are magical Persons troubled with Cramp in the Stomach, Side, or Bowels, Sore Throat Piles, &c, by a combined internal and external application of this Anodyne, cannot fail of certain and speedy cure. The proprietor can produce volumes of testimonials in its favor, but prefers to let it carry its own recommendations as it has done for forty years past We ask no man to use it a fair and unsatisfactory trial! In its composition it unites several of the most penetrating and healing specifics known to the materia medica—The inventor of this article was in the constant and successful practice of medicine for more than twenty years.

This is to certify that having been troubled for a number of years with a distressing cough, and bleeding at the lungs, and receiving no benefit from medical aid, in 1848 I was in all appearance in the last stage of consumption, My legs swelled so that I was unable to stand or help myself. At that time your Liniment was providentially recommended to me and by the use of three or four bottles I was entirely cured, and have since been able to labor every day I have also for the last twenty years been subject to severe attacks of bloody dysentery, and never found any permanent relief until I took your Liniment, since which I have had no return of the complaint I can truly say I think your Anodyne Liniment was the means of saving my life JOHN T ATKINS

Brewer, Sept 29, 1852.

DR JOHNSON Dear Sir—In consequence of having a fever sore on my leg, it became entirely stiff at the knee, and it was decided by the best surgeons that my leg must be amputated—but fortunately I heard of your Anodyne Liniment and by using three bottles, my leg was limb
